# Welcome to your UCLEAR Commander

Thank you for purchasing the UCLEAR Commander Bluetooth headset. The UCLEAR Commander is a Bluetooth headset designed exclusively for car drivers over the world. It unites the UCLEAR's own "One-Touch-Dial" Bluetooth voice speed dial and quick-connect features to allow hands-free dialling with accuracy up to 99.5%. With the UCLEAR Commander, you will be able to stay connected while focussing on the conditions on the road and driving with both hands unhindered.

**In-car multi-function  
charging cradle**

**12 volts USB car charger**

**USB charging cable**

**User Manual**

**Ear Plugs (S, M, L)**

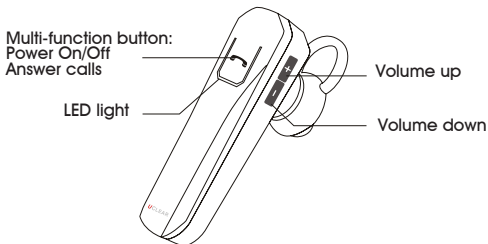

**Lanyard**

**Ear hook**

# Getting started

## *Introduction to your UCLEAR Commander*

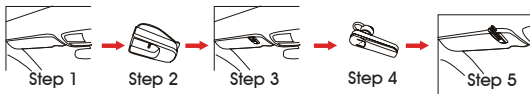

## ***Charging the battery***

- To charge the UCLEAR Commander, use the charging cable provided to connect to your computer USB port or the 12 volts USB car charger.
- When the UCLEAR Commander is charging, the LED light will glow red.
- When the UCLEAR Commander has finished charging, the LED light will glow blue.

## ***Low battery indication***

- The UCLEAR Commander's LED light will blink red when the battery is low.

### ***Installing the in-car visor bracket***

- Position and fasten the in-car visor bracket onto the visor.
- Install the headset onto the in-car visor bracket.
- Adjust the positioning of the headset and the in-car visor bracket.

### ***Installing the in-car multi-function charging cradle***

- Identify a position to adhere the charging cradle
- Peel off the double sided tape protective film.
- Carefully place the charging cradle onto the identified position.
- Apply slight pressure onto the charging cradle to ensure that the charging cradle is firmly secured.

\* Remarks: You can choose whether to install the in-car visor bracket and in-car multi-function charging cradle as per your preference.

### ***Powering on the headset***

- The headset will power on automatically when it is removed from the visor bracket or charging cradle.
- Press and hold the multifunction button for 2 seconds to power on the headset if it is not in the visor bracket or charging cradle.

# Getting started

## ***Powering off the headset***

- The headset will automatically power off when returned to the visor bracket or charging cradle.
- Press and hold the multi-function button for 5 seconds to power it off.

## ***Pairing the headset with your phone***

Please pair the UCLEAR Commander Bluetooth headset with your mobile phone first in order to use the headset. The headset will automatically connect to your phone each time after they have been paired.

- Press and hold the multi-function button for 2 seconds to power on the headset, then press and hold the “+” and “-” button for 5 seconds in order to enter pairing mode. The LED light will blink red and blue to indicate that you have successfully entered into pairing mode.
- Enable Bluetooth on your mobile phone and search for Bluetooth devices. Select “UCLEAR Commander” from the list of devices.
- If your mobile phone prompts you to enter a password, use “0000”.

Most mobile phones will automatically connect to the phone and music features after pairing is complete.

After pairing your UCLEAR Commander Bluetooth headset to your mobile phone, you may now use the headset to answer incoming calls or make outgoing calls or listen to music.

## ***Making calls over Bluetooth***

### ***Using your mobile phone***

- Directly dial from your mobile phone.

### ***Using “One-Touch-Dial” voice speed dial***

With UCLEAR's own “One-Touch-Dial” Bluetooth voice speed dial function, users can make calls with their own voice by pressing the multi-function button. Accuracy can be up to 99.5%. Users can be able to stay connected while focussing on the conditions on the road and driving with both hands unhindered.

## ***Android OS***

### ***Installing UCLEAR Commander APP***

- Download UCLEAR Commander's APP from Google Play and install it into your mobile phone.
- After installation of the APP, its icon will appear on your mobile phone's Homepage.

### ***Recording voice tags of your contacts***

- Activate the UCLEAR Commander APP on your mobile phone.
- Click the “Settings” button and enter the “Contacts” interface, select the contact number and tap “Record voice tag” from the menu. After you hear the beep tone, say the contact's name to create the voice tags and repeat to do so for other contact numbers.

# Getting started

Remarks: The Commander Bluetooth headset must be linked with the mobile phone before using the UCLEAR Commander APP.

## ***Activating voice speed dial APP***

- Press multi-function button on your UCLEAR Commander Bluetooth headset, and the UCLEAR Commander APP will be automatically activated. After you hear the beep tone, call the contact name you wish to call as per the corresponding recorded voice tag, then your call will be initiated.

## ***iOS***

Press the multi-function button on your UCLEAR Commander Bluetooth headset, and it will automatically activate the built-in “voice recognition APP” or “Siri” in iPhone. Call the name of a contact in your contact book that you wish to call (e.g. David) and your call will be initiated.

## ***Answering incoming calls***

- Removing the headset from the visor bracket or the charging cradle will automatically answer an incoming call.
- When the headset is not in the visor bracket or charging cradle: If the headset is powered off, press and hold the multi-function button for two sections to answer the call. If the headset is powered on, click the multi-function button to answer the call.

## ***Ending a call***

- End a call on the mobile phone.
- Press the multi-function button to end a call.

# Getting started

## ***Call waiting and switching between calls***

- When you are on a call and receive another incoming call, press the multi-function button to put the first call on hold and answer the new call. Press the multifunction button again to switch between the two calls.
- To end an active call while another is still on hold, quickly press the multi-function button twice.

## ***Increase the volume***

- Press the “+” button.

## ***Decrease the volume***

- Press the “-” button.

## ***Listening to music via the headset***

- If your mobile phone supports A2DP/AVRCP Bluetooth Profile, you can play music directly to the headset and control the mobile phone from the UCLEAR Commander Bluetooth headset.

## ***Playing music***

- To start playing music, please activate the music player in your mobile phone and start playing music. To stop playing the music, please select “pause” in your mobile phone.

## ***Skip to the next song***

- Press and hold the “+” button for 2 seconds.

## ***Go back to the previous song***

- Press and hold the “-” button for 2 seconds.

## ***Increase the volume***

- Press the “+” button.

## ***Decrease the volume***

- Press the “-” button.

## ***Advanced product features***

- Digital signal processing (DSP) to reduce noise and echo to ensure clear conversation.
- Long standby time, works with in-car headset bracket can support 30days daily life use.
- Multi-point connection, can pair and use with two devices simultaneously.

## ***Pairing with two mobile phones simultaneously***

1. Press and hold the multi-function button for 2 seconds to power on the headset, then press and hold the “+” and “-” buttons for 5 seconds in order to enter pairing mode. The LED light will blink red and blue to indicate that you have successfully entered into pairing mode.
2. Enable Bluetooth on your mobile phones and search for Bluetooth devices. Select “UCLEAR Commander” from the list of devices.
3. If your mobile phone prompts you to enter a password, use “0000”.
4. After the pairing is successful, disable Bluetooth on your mobile phone and press and hold the multi-function button for 5 seconds to power off the headset.
5. Repeat steps 1-3 with your second mobile phone to pair it with the headset.
6. Enable Bluetooth on your first phone and re-connect to the headset. You can now connect the Commander headset with both mobile phones.
